Dear Adrian

Anne Jones the president of the Australian Endurance Association has passed on a set of your West End "toe stoppers" to me, and they are being well used and are just excellent!

The rider who is using them is a relative newcomer and was having some difficulty with her foot position, and some subsequent rubbing of her leg....the toe stoppers have solved both problems, not to mention allowing her to ride in an FEI ride and also making the stirrups much safer.

They fit my poly oxbow stirrups....really well....they are great.

A great product...thanks again,

Regards,
Dick Collyer
