Have you had your feet slip forward on the irons? YES ** NO <input type="checkbox"/>	Have you ever lost your Irons before? YES ** NO <input type="checkbox"/>
What do you like about Toe Stoppers?	
<p>The extra security of not having your feet slip around in the stirrups over a fence or when a horse is playing up. I have a horse that used to unbalance me over a fence and then take advantage of this and try and dump me. Since I have been using toe stoppers the horse no longer unbalances me over a fence and we get along much better now. You don't even know the toe stoppers are there until you feel the point that your feet would normally slip and you feel a lot safer and you don't have to worry about getting you feet back in the right position.</p>	
Are you aware of the danger of being hooked up and dragged? YES ** NO <input type="checkbox"/>	Have you ever been hooked up or dragged? YES <input type="checkbox"/> NO **
Do you know of a rider who has been hooked up or dragged? Please briefly mention the incident.	
<p>At a show 2 weeks ago a rider fell when her horse ran out at the last element of the 6 bar. She was hooked up but luckily her foot came out after the horse had only gone two strides but it looked like the incident could have been a lot worse</p>
