Dear Adrian

We met on the Equitana and had some coffee together on our stand (lilac waistcoats). Remember, you gave me a pair of toestoppers for free.

Guess what happened last week. I went on a 40 mile ride and right in the beginning my horse got scared by a dog, slipped and fell on the asphalt.

I was able to get off but my foot was still caught in the stirrup under my horse. When she jumped back on her feet my foot slipped out of the stirrup -because of the toestoppers.

If I would not have had them I would have been caught in the stirrup and not been able to calm her down. I don't want to think about what all could have been happened in that situation (it was early morning and I were only on my own).

I thanked God that we both were unhurt and able to just go on with the ride perfectly fine.

I just want to tell you this story to thank you very much for those toestoppers and to confirm you that you are selling a great product.

They are a blessing and I'm convinced now that even the calmest horse should not be ridden without them.

God bless you,
Esther Schroth
