

David Carney South Aust Jockey lost his iron 1 furlong out in a race in January 2004 which cost him the owners and trainer the race. David told me Toe Stoppers could have prevented this from happening and has since been using Toe Stoppers.

Print Name..David Carney..... Sign..D.K. Carney.....

Date..14.2.04....Ph 0882969935..... Jockey Track rider Trainer

What I liked about the Toe Stoppers safety of my foot not slipping
Balance I also used the trackwork TOE Stoppers
& found them comfortable

What I didn't like about the Toe Stoppers
nothing

Other: Do you believe if the Track Toe Stoppers were made compulsory they could prevent riders from being hooked up and dragged, therefore reducing injuries and deaths? yes no

Other: Would you use the Race Toe Stoppers in races if you were given a weight allowance incentive yes no

Other: Should jockeys be given a Toe Stopper weight allowance if it could save them from being hooked up or dragged causing serious injuries or death yes no

Other: If available would you wear the Toe Stoppers every time you ride? yes no

Other: Have you been dragged or hooked up before or are you aware of a rider being hooked up or dragged. Please briefly mention the incident. yes i have been hooked up a couple of times and see them as a great invention to save people from being Draged.
