What I liked about the Toe Stoppers

I like the Idea of not getting hung up during a race and they provided my feet with a little extra protection in the gates.

What I didn't like about the Toe Stoppers

Just take a few rides to get used to. Also I struggle with the weight and still with a claim I can't use them majority of races.

Other: Do you believe if the Track Toe Stoppers were made compulsory they could prevent riders from being hooked up and dragged, therefore reducing injuries and deaths? **yes** **no**

Other: Would you use the Race Toe Stoppers in races if you were given a weight allowance incentive **yes** **no**

Other: Should jockeys be given a Toe Stopper weight allowance if it could save them from being hooked up or dragged causing serious injuries or death **yes** **no**

Other: If available would you wear the Toe Stoppers every time you ride? **yes** **no**

Other: Have you been dragged or hooked up before or are you aware of a rider being hooked up or dragged. Please briefly mention the incident. Harnt been hooked up but had an apprentice I help learn to ride a bit. he went back to New Zealand to race ride, on his 17th race ride he got hooked up, dragged for 50m and died. He was 16yo
