**What I liked about the Toe Stoppers**  
 The way they can be adjusted to suit a rider who only used their toe, & a rider who used ball of foot.  
 -balance, safety, security, power - All IMPROVED

**What I didn't like about the Toe Stoppers**  
 NO WEIGHT ALLOWANCE

**Other:** Do you believe if the Track Toe Stoppers were made compulsory they could prevent riders from being hooked up and dragged, therefore reducing injuries and deaths? yes  no

**Other:** Would you use the Race Toe Stoppers in races if you were given a weight allowance incentive yes  no

**Other:** Should jockeys be given a Toe Stopper weight allowance if it could save them from being hooked up or dragged causing serious injuries or death yes  no

**Other:** If available would you wear the Toe Stoppers every time you ride? yes  no   
 \*BUT ONLY IF GIVEN WEIGHT ALLOWANCE\*

**Other:** Have you been dragged or hooked up before or are you aware of a rider being hooked up or dragged. Please briefly mention the incident.  
 I was hooked up & dragged during a trackwork incident
