To Whom It May Concern:

The Toe Stoppers Report

I have been using Toe Stoppers in races for 4 month, In that time I have found them to be an added advantage, they are non restricting and give you a secure feel.

The weight allowance should be given to use the toe stoppers in all states. Jockeys weight problems are serious and we would need a weight allowance to use them in all races and if we were given a weight allowance most jockeys would use them, a heavy weight jockey should not be robbed of this safety device.

Thank god I have never been dragged, but being a light weight jockey I' am able to use the toe stoppers to prevent this from ever happening.

Thank you for putting a great product on the market.

Sincerely,

Matt Cant
