Track condition	<input type="checkbox"/> Good <input checked="" type="checkbox"/> Fair <input type="checkbox"/> Poor

What I liked about the Toe Stoppers Better balance and support, they felt comfortable and you don't even notice they are there. I felt a lot safer using the Race Toe Stoppers.

What I didn't like about the Toe Stoppers I was unable to use them on 3 of the 5 jumping events on that day because of the weight of them. Jockeys would need a weight allowance so they could use them all the time.

Other: Do you believe if the Track Toe Stoppers were made compulsory they could prevent riders from being hooked up and dragged, therefore reducing injuries and deaths? yes no

Other: Would you use the Race Toe Stoppers in races if you were given a weight allowance incentive yes no

Other: Should jockeys be given a Toe Stopper weight allowance if it could save them from being hooked up or dragged causing serious injuries or death yes no

Other: If available would you wear the Toe Stoppers every time you ride? yes no

Other: Have you been dragged or hooked up before or are you aware of a rider being hooked up or dragged. Please briefly mention the incident. YES! On the 20th of June 2002 I was hung up off "Beau Prediction" in the Harrington Maiden Hurdle and I fractured my cheek bone. I also remember jumps jockey Simon Mills being dragged over a fence at Oakbank in S.A. and also the rider that was dragged recently in Victoria which was on ABC Television.
