Subject: Toe Stoppers

Hi Adrian,

Kylie here, I had apprentice school this week and took a set of Toe Stoppers in for them to all try most of them really liked the feel of them and were interested in getting some.

I was just inquiring on how to get some for them?

Thanks very much

Kylie Williams

Riccarton Apprentice Jockey School
New Zealand

There are currently 8 girls and 7 boys. Their ages range from about 16, 17 through to about 21,22. Their weights range from 40kg through to 57kg.

I think 6 out of the 15 will have weight problems that includes a couple of the female apprentices too. Some of the other apprentices are quite light and could get heavier as they age.
