Adrian Morgante
Toe Stoppers

Dear Adrian

Thank you very much for your interest in the young riders of the Northern Territory. We were able to try out the samples you sent us with favourable and positive comments from most.

The Pony Club Association of the NT realises the potential of the design of your product in relation to rider safety. While we will not stipulate the use of Toe Stoppers by our pony club riders as compulsory, they will be acceptable in the gear safety check carried out by our instructors at the beginning of each rally or pony club competition.

In any instructor training sessions I conduct, I will bring Toe Stoppers to the attention of the participants and point out their safety features, ease of use and maintenance, and show the correct fitting of them.

I will also forward a copy of this letter to the various saddlery outlets in the Northern Territory so they will be able to advise any parents that Toe Stoppers are acceptable at pony club rallies and competitions.

I wish you every success with your product. Thank you very much for giving us the opportunity to try out Toe Stoppers.

Regards
Pam Crellin
Chief Instructor
