What I liked about the Toe Stoppers
For riders who like to ride with toes and Ball of foot I can recommend that toe stoppers are a lot safer than just the irons.

What I didn't like about the Toe Stoppers

Other: Do you believe if the Track Toe Stoppers were made compulsory they could prevent riders from being hooked up and dragged, therefore reducing injuries and deaths? yes no

Other: Would you use the Race Toe Stoppers in races if you were given a weight allowance incentive yes no

Other: Should jockeys be given a Toe Stopper weight allowance if it could save them from being hooked up or dragged causing serious injuries or death yes no

Other: If available would you wear the Toe Stoppers every time you ride? yes no

Other: Have you been dragged or hooked up before or are you aware of a rider being hooked up or dragged. Please briefly mention the incident.

yes I have been hooked up before and I think the safety irons that they use for trackwork twist and lock. the toe stoppers would be very good for that but I ride with my whole foot in the irons. I don't agree with toes. but the toe stoppers are perfect for riders who ride with toes.
