Adrian,

We are very pleased with our "Toe Stoppers" which we have fitted  
To all our stirrups.

They are great for getting people to keep their feet in the correct  
Position which allows them to ride a lot better.

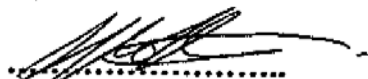

Also, we do not have the worry of riders getting hooked up in their  
Stirrups. As people turn up to ride in all sorts of footwear.

We do not allow people to ride our horses without "Toe Stoppers"

Whether they are good riders or learners.

The safty aspect of them is excellent.

Yours faithfully,

Alan Cottrell.
