Dear Adrian,

RE: Commitment to Toe Stoppers

I have been working in the horse racing industry as a trackwork rider for the last 35 years, I rode work for the great trainer Tommy Smith for 12 years and also rode work over the years for Cups King Bart Cummings as well as Robert Pearse and other trainers.

I am still riding work at 49 years of age and have just obtained my trainers licence here in Rockhampton, Queensland.

I have ridden horses all my life with my whole foot in the stirrup iron and can honestly say that after being introduced to Toe Stoppers I was surprised at how comfortable I felt whilst riding and how easy it was to get used to riding on the ball of my feet after never having ridden on the ball of my feet before.

I will never ride a horse without Toe Stoppers ever again and can confirm that Toe Stoppers will be used on every saddle whilst I am training horses. I will be recommending Toe Stoppers to my fellow trainers and trackwork riders here in Rockhampton.

Yours Faithfully

Jamie Unwin
Trainer/Trackwork Rider
