Dear Adrian

RE: Compulsary use of Toe Stoppers

I wish to confirm my commitment to the use of Toe Stoppers within my Kent Fleming Racing Stables on the Gold Coast Queensland Australia.

I have been working in the horse industry for approximately 15 years and for the last 12 months I have been based on the Gold Coast as a trainer. I ride my horses in trackwork every morning and can say that after using Toe Stoppers for the last couple of weeks I am very happy with the product.

Toe Stoppers are very comfortable and easy to use and stops my feet from slipping around on the iron. I believe your product will prevent me from being dragged.

I feel so confident and safe using the product that commencing immediately I have made Toe Stoppers compulsary use throughout my racing stables.

Yours Sincarely

  
Kent Fleming  
Trainer
