## RE -Toe Stoppers

The racing version of the “Toe Stoppers” stirrup attachment was tested in races at Nad Al Sheba racecourse, Dubai, United Arab Emirates in November of 2002.

“Toe Stoppers” are subsequently approved for use in races provided riders weigh out with them as part of their apparel. They are also approved for use in trackwork.

A handwritten signature in blue ink, appearing to read 'F. Powrie', is written over the printed name and title.

**Fin Powrie**  
Chief Steward and Racing Administrator.
