March 30th 2004

Dear Sir

We are a busy BHS approved riding centre and we cater for both experienced and casual riders.

We have now tried out your TOE STOPPERS and are very impressed. We consider them to be a great breakthrough in riding safety.

It has always been a problem for us to safely mount casual riders wearing footwear such as trainers and it is impractical to try and provide riding boots for all.

Toe stoppers have effectively solved the problem for us.

Thankyou.

Eleanor Jones BHSII
