Adrian,

I got Toe Stoppers yesterday, and rode with them last night.

All I can say is oh my GOSH ! The safety feature is wonderful, but what about the stability my feet had in the stirrups on my big mover Black Moon.

It was an unexpected surprise. I will certainly be purchasing two more pairs for my daughters and doing my share to promote your wonderful product.

I think your product will do very well in the U.S.

Best of luck to you and Toe Stoppers.

Thanks, June
